RUMEN ORACHEV

Junior Backend / Cloud Developer

www.rumenorachev.es

ABOUT ME

- Final-year Multi-platform Application Development student with hands-on experience in backend and cloud-based systems.
- Currently building my backend profile through experience at GFT Technologies and developing a SaaS platform with REST APIs, databases, and cloud deployment.
- Strong interest in backend engineering and scalable systems. English C1 certified.

PROFESSIONAL EXPERIENCE

1

Backend Developer

GFT Technologies | 2026

- Developed backend components using Java and Spring Boot following clean architecture principles.
- Designed and consumed REST APIs, working with data persistence and service integration.
- Worked in an agile team environment with iterative delivery and task tracking.

2

Full Stack Developer

ECOMPUTER | 2025

- Developed web applications using Vue 3 and Laravel, building reusable and scalable components.
- Integrated REST APIs and managed data flow between frontend and backend systems.
- Worked with MySQL databases, handling data queries and application logic.

3

IT Operations Technician

MARATRÓN | 2018 - 2024

- Managed and maintained digital access and payment systems in a real operational environment.
- Monitored system performance and resolved technical incidents.
- Provided technical support and ensured service continuity.
